Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: Claims 1-20 are considered allowable over the prior art of record since none of the prior art anticipates or suggests the method steps for attaching a saddlebag to a vehicle as claimed. Specifically, the patent to Campbell (US 6,499,638) discloses a pin which is engaged by a biased sphere (cam) located within a clearance area. However, Campbell does not disclose the steps of providing a cam having an inclined surface and the step of rotating the cam to engage the groove. The patent to Alderman (US 6,354,476) discloses a latch type lock 23, 32 to retain a bag to a motorcycle but fails to evidence a method involving the use of a rotating cam engaging a groove in a cam spindle as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
